

HR COIL STRIP INSPECTION SYSTEM

The system offers an operator friendly approach to Ultrasonic Inspection and provide flexibility to apply to both of On-line and Off-line Ultrasonic inspection for most kinds of plate (steel, aluminum, stainless s

TECHNICAL FEATURES

Multi Channel UT System
16ch / 32ch / 48ch / 64ch / 128ch

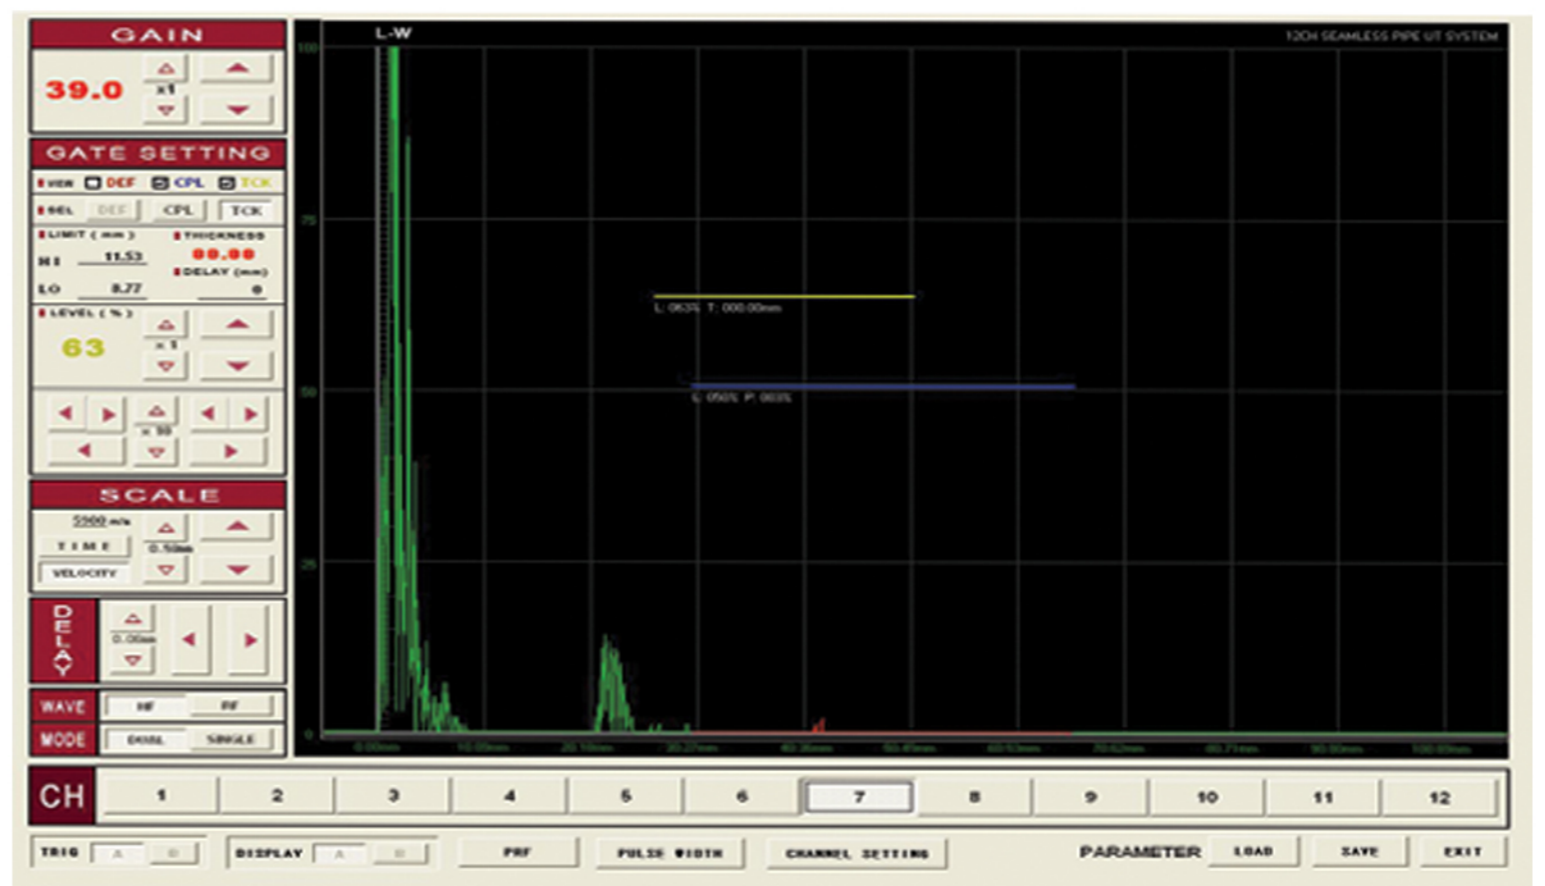

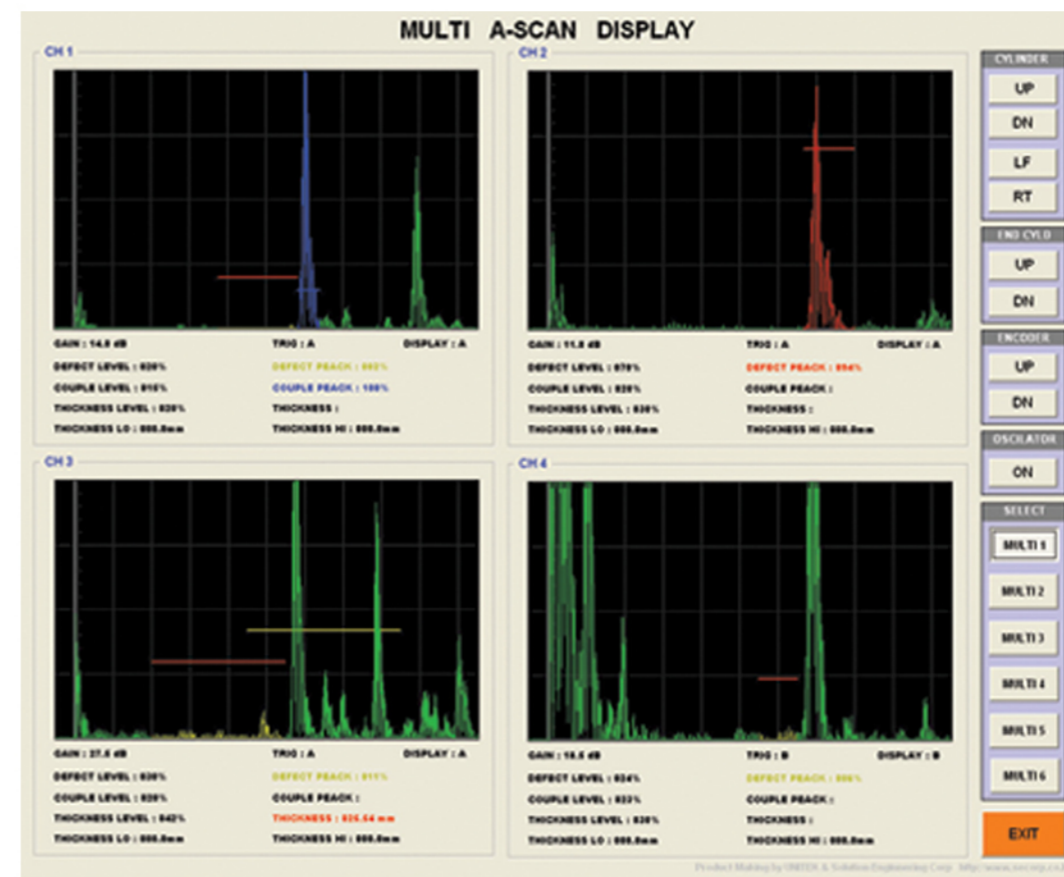

Programmable Settings
User oriented graphical display

Paint marking Device
Flaw Detection
Loss of coupling

Mechanical Sensor Head
Cylinder supported holder
PLC controlled Sensor head

Remote Display
Remote control
Remote display on pipe

Data Processor
Print out for each probe
Digital storage of test record
Calibration record
Network Link

OPTIONAL FUNCTION

- PLATE THICKNESS MEASUREMENT
- B / C / D -SCAN RESULT AS WELL AS A-SCAN

MEET TO MOST STANDARDS

- API 5L / ISO / ARAMCO / SHELL
