

NDT for Propellant of the aerospace industry

All of our services are qualified, verified and compatible with international standards on Non Destructive Testing for Aerospace

- Digital X-Ray NDT
- Ultrasonic NDT
- Flux Leakage NDT

TECHNICAL FEATURES

- Multi Channel UT System
4ch / 8ch / 16ch / 32ch
- Programmable Settings
User oriented graphical display
- Paint marking Device
Flaw Detection
Loss of coupling
- Mechanical Sensor Head
Cylinder supported holder
PLC controlled Sensor head
- Remote Display
Remote control
Remote display on pipe
- Data Processor
Print out for each probe
Digital storage of test record
Calibration record
Network Link

MEET TO MOST STANDARDS

- API 5L / ISO / ARAMCO / SHELL
